**Limetree's Proposed PAL Permit on Schedule for July** – APB received comments from OGC and OAQPS on the draft permit on July 8. APB is reviewing the HQ comments and revising the draft as appropriate. Regarding our review of the EJ analysis, we are still waiting for clarification from the Limetree consultant on a number of modeling issues. APB expects these issues will be resolved within a week, so we can finish our review and prepare the proposed permit for public notice and review.

**Limetree Bay TPDES Site Visit:** Karen O'Brien attended an informational site visit regarding the Territorial Pollutant Discharge Elimination System (TPDES) permit application for the Limetree Bay Terminals and Refining facility on St. Croix, USVI. Limetree Bay submitted the permit application for future activities at the facility on June 11, 2019. EPA will provide technical assistance to VI DPNR as they review the application and develop protective permit limits and conditions for current and future activities at the facility. (POC: Karen O'Brien)
